Contents

Volume 56

Modulatory effect of crocetin on aflatoxin B_1 cytotoxicity and DNA adduct formation in C3H10$T_{1/2}$ fibroblast cell
C.-J. Wang, H.-S. Shiah and J.-K. Lin (Taiwan, Republic of China) ..... 1—10

Carcinogenicity study of fecapentaene-12 diacetate on skin painting in SENCAR mice
D.E. Devor, J.R. Henneman, L.K. Keefer, D.L. Logsdon, J.M. Rice, A.J. Streeter and J.M. Ward (Frederick, MD) ..... 11—15

Low frequency of *ras* activation in 2-acetylaminofluorene- and 3′-methyl-4-(dimethylamino)azobenzene-induced rat hepatocellular carcinomas
H. Li, G.-H. Lee, J. Liu, K. Nomura, K. Ohtake and T. Kitagawa (Tokyo, Japan) ..... 17—24

Modulation of tumor promotion in mouse skin by the food additive citral (3,7-dimethyl-2,6-octadienal)
M.J. Connor (Los Angeles, CA) ..... 25—28

Modifying effect of ascorbic acid and sodium ascorbate on the promoting stage of uterine sarcomogenesis induced in CBA mice by 1,2-dimethylhydrazine and estradiol-dipropionate
V.S. Turusov, L.S. Trukhanova and Yu.D. Parfenov (Moscow, U.S.S.R.) ..... 29—35

Antitumor activity of *Streptococcus thermophilus* against fibrosarcoma: role of T-cells
G.S. Kaklij, S.M. Kelkar, M.A Shenoy and K.B. Sainis (Bombay, India) ..... 37—43

Transcription of N-*myc* and proliferation-related genes is linked in human neuroblastoma
G. Raschellà, A. Negroni, C. Giubilei, A. Romeo, S. Ferrari, M.A. Castello and C. Dominici (Modena and Rome, Italy) ..... 45—51

Colon adenocarcinomas in European hamsters after application of *N*-nitrosobis-(2-oxypropyl)-amine
P.-G. Germann, H. Ernst, M. Kohler, K. Kamino and U. Mohr (Hannover, Germany) ..... 53—58

Chemopreventive action of mace (*Myristica fragrans*, Houtt) on DMBA-induced papillomagenesis in the skin of mice
L.N. Jannu, S.P. Hussain and A.R. Rao (New Delhi, India) ..... 59—63

Lectin soybean agglutinin: measurements in colonic epithelial cells of human subjects following supplemental dietary calcium
K. Yang, L. Cohen and M. Lipkin (New York, NY and Toronto, Canada) ..... 65—69

Identification of a co-stimulatory factor for human T cell proliferation
M. Abolhassani and J.W. Chiao (Valhalla, NY) ..... 71—76

Estrous cycle dependence of nitrosomethylurea (NMU)-induced preneoplastic lesions in rat mammary gland
C.H. Anderson, R.A. Hussain, M.C. Han and C.W. Beattie (Chicago, IL) ..... 77—84

Modulation of resistance to alkylating agents in cancer cells by gossypol enantiomers
J.M. Ford, W.N. Hait, S.A. Matlin and C.C. Benz (New Haven, CT and San Francisco, CA) ..... 85—94

Announcement 95

Inhibition of human renal cancer by monoclonal antibody targeted methotrexate-containing liposomes in an ascites tumor model
M. Singh, T. Ghose, M. Mezei and P. Belitsky (Halifax, Canada) ..... 97—102

Effect of protease inhibitors on DNA amplification in SV40-transformed Chinese hamster embryo cells
M.B. Flick and A.R. Kennedy (Philadelphia, PA) ..... 103—108

Potentiation of renal tumorigenicity by cyclosporine A in streptozotocin diabetic rats
A.S. Reddi, G.N. Jyothirmayi, K. Halka and M.Y. Khan (Newark, NJ) ..... 109—115

The effects of ellagic acid and 13-*cis*-retinoic acid on *N*-nitrosobenzylmethylamine-induced esophageal tumorigenesis in rats
E.M. Daniel and G.D. Stoner (Toledo, OH) ..... 117—124

Involvement of singlet oxygen in chloroaluminum phthalocyanine tetrasulfonate-mediated photoenhancement of lipid peroxidation in rat epidermal microsomes
R. Agarwal, M. Athar, S.A. Urban, D.R. Bickers and H. Mukhtar (Cleveland, OH) ..... 125—129
Aneuploidy and progression in promoted preneoplastic foci during chemical hepatocarcinogenesis in the rat
O. Sudilovsky and T.K. Hei (Cleveland, OH) ..... 131—135
High-dose inhibition and low-dose enhancement of murine sarcoma growth exhibited by BCG vaccine
M.E. Klegerman, L. Ujjainwala and P. Zeunert (Chicago, IL) ..... 137—145
Antiproliferative effects of citrus flavonoids on a human squamous cell carcinoma in vitro
C. Kandaswami, E. Perkins, D.S. Soloniuk, G. Drzewiecki and E. Middleton, Jr., (Buffalo, NY) .... 147—152
Lack of carcinogenicity of 2-aminofluorene, its glucuronide and the glucuronide of *N*-hydroxy-2-acetylaminofluorene in heterotopic bladder of the rat
C.Y. Wang, K. Imaida, K. Zukowski and M.-S. Lee (Detroit, MI and Tokyo, Japan) ..... 153—157
Increased synthesis of N^1-acetylspermidine in hepatic preneoplastic nodules and hepatomas
A. Sessa and A. Perin (Milan, Italy) ..... 159—163
Role of dietary oleic acid in linoleic acid-enhanced metastasis of a mouse mammary tumor
N.E. Hubbard and K.L. Erickson (Davis, CA) ..... 165—171
Identification of membrane antigens in granulocytes and colonic carcinoma cells by a monoclonal antibody specific for biliary glycoprotein, a member of the carcinoembryonic antigen family
Z. Drzeniek, R. Lamerz, U. Fenger, C. Wagener and H.-D. Haubeck (Aachen, Munich and Hamburg, F.R.G.) ..... 173—179
Doxorubicin stimulates transcription from the human immunodeficiency virus long terminal repeat sequences
V. Zoumpourlis, D.J. Kerr and D.A. Spandidos (Athens and Heraklion, Greece and Glasgow, U.K.) 181—185

Obituary ..... 187—188
Marked increases in DT diaphorase activity in malignantly transformed Syrian hamster fibroblastic cells
H. Tsuda (Kanagawa, Japan) ..... 189—195
Antileukemic activity of Viva-Natural, a dietary seaweed extract, on Rauscher murine leukemia in comparison with anti-HIV agents, azidothymidine, dextran sulfate and pentosan polysulfate
E. Furusawa, S. Furusawa and S.C. Chou (Honolulu, Hawaii) ..... 197—205
Enzyme immunoassay for (3-amino-1-methyl-5*H*-pyrido[4,3-*b*]indole), a tryptophan pyrolysate
S. Miyairi and T. Nambara (Sendai, Japan) ..... 207—213
Induction of nuclear anomalies in the gastrointestinal tract by polycyclic aromatic hydrocarbons
T.V. Reddy, J.A. Stober, G.R. Olson and F.B. Daniel (Cincinnati and West Chester, OH) ..... 215—224
Inhibitory effects of prostaglandin $F_2\alpha$ on mammary carcinogenesis induced by ethyl methanesulphonate in rats
H. Ueo, H. Matsuoka, H. Inoue, T. Akiyoshi and R. Takaki (Beppu and Oita, Japan) ..... 225—230
Chemopreventive action of mace (*Myristica fragrans*, Houtt) on methylcholanthrene-induced carcinogenesis in the uterine cervix in mice
S.P. Hussain and A.R. Rao (New Delhi, India) ..... 231—234
Tumoricidal action of *cis*-unsaturated fatty acids and their relationship to free radicals and lipid peroxidation
U.N. Das (Hyderabad, India) ..... 235—243
Inhibition by caffeine of ovarian hormone-induced mammary gland tumorigenesis in female GR mice
L.C. VanderPloeg and C.W. Welsch (East Lansing, MI) ..... 245—250
Changes in plasma gangliosides in relation to tumor growth modified by vitamin A
S. Saha and A. Ghosh (Calcutta, India) ..... 251—258
Reversal by 5-azacytidine of the S-adenosyl-L-methionine-induced inhibition of the development of putative preneoplastic foci in rat liver carcinogenesis
R. Pascale, M.M. Simile, M.E. Ruggiu, M.A. Seddaiu, G. Satta, M.J. Sequenza, L. Daino, M.G. Vannini, P. Lai and F. Feo (Sassari, Italy) ..... 259—265
Corrigendum 267
Subject Index Volume 56 ..... 269—271
Author Index Volume 56 ..... 273—274
Contents Volume 56 ..... 275—276
